

K-LOVE is essential to the christian community in Killeen. It is the the only station that i listen to and that most of my friends listen to. I would have a huge personal loss if i couldnt get it anymore. I wouldnt listen to any other stations either. Many people would be upset at the loss of our great christian station. K-LOVE encourages us when we are down and the music is a joy and strength to us. The DJ's are awesome! The music is uplifting and encouraging. They have services available to us that we may not be able to get elsewhere. They also have services that are vital to our community. We would be losing a huge part of us if K-LOVE were lost to our radio. You would also have a very upset community to deal with. You would receive many letters over and over on why you should bring it back and why you arent helping the community. Please do not take our life source in music away. We need K_LOVE!!
